<sup>1</sup> This refers to the absence of the entire families, and not just heads of households or part of the families. As indicated in the records of the shelter assessment teams; most of these families had gone back to Pakistan. A minority had moved to live in other areas such as Jalalabad and Kabul.

<sup>2</sup> Other reasons included mostly the following: Good housing conditions; possession of various number of VRFs (therefore recyclers); no land ownership; or not the real owner of the VRF.

<sup>3</sup> This means that the person would have otherwise been selected as a beneficiary, if it were not for his lack of ownership of land.
